

What are the benefits of e-Learning?

Unlimited Access

Anywhere, anytime e-Learning. Over 1300 business, desktop software and technical skills courses and videos to watch and learn from.

Consistency

Using e-Learning courses and videos to train your staff guarantees that all users view exactly the same information, in a format that is accessible to everyone.

Flexibility

e-Learning gives you the option to learn at your own pace, in a non-threatening environment. Our courses involve users according to their own development technique, timetable, and specifications.

Range

With an extensive library of courses, ranging from Customer Service and Management, to IT and Web Design, you can formulate a development program that suits any user.

Regular Updates

MindLeadersUK releases new courses on a quarterly basis. With 200 courses added each year, MindLeadersUK courses maintain pace with emerging technologies and applications.

Measurable Skills

To assess whether your e-Learning solution is being implemented by your staff, MindLeadersUK gives you the option to monitor skills, assess and print reports of achievement. This immediate feedback will assist and reinforce development in all students.

Courses that grow with your workplace

From basic desktop skills to advanced web technology. As your business needs grow, so will you and your staff's skills.

'An organisation's ability to learn, and translate that learning into action, is the ultimate competitive advantage.'

Andy Groves (Intel)
